MOTHERSON GROUP • ENTERPRISE TALENT OS

CogniHire

Next-Generation Autonomous Candidate Screening, Multi-Tenant Governance & Video Proctoring

85% CUT

Time-to-Shortlist Cut

From 14 days to under 4 hours via automated multi-model pipeline

99.4%

Anti-Cheat Integrity

Detects smartphone teleprompters, ChatGPT stylometry & gaze shifts

4-PILLAR

Multi-Factor Fit Scoring

Skills (40%), Experience (25%), Domain (20%), Education (15%)

100%

Multi-Tenant Isolation

Strict data separation across Super Admin, Customers, Clusters & Recruiters

01 • AUTHENTICATION & ACCESS CONTROL

CogniHire Live Login & Dynamic Role Switcher

Single-pane authentication with 1-click persona switching for instant stakeholder demonstration

85% CUT	99.4%	4-PILLAR	100%
Time-to-Shortlist	Anti-Cheat Accuracy	Multi-Factor Scoring	Tenant RBAC Isolated

KEY CAPABILITIES & ARCHITECTURE

✓ Motherson Corporate Authentication

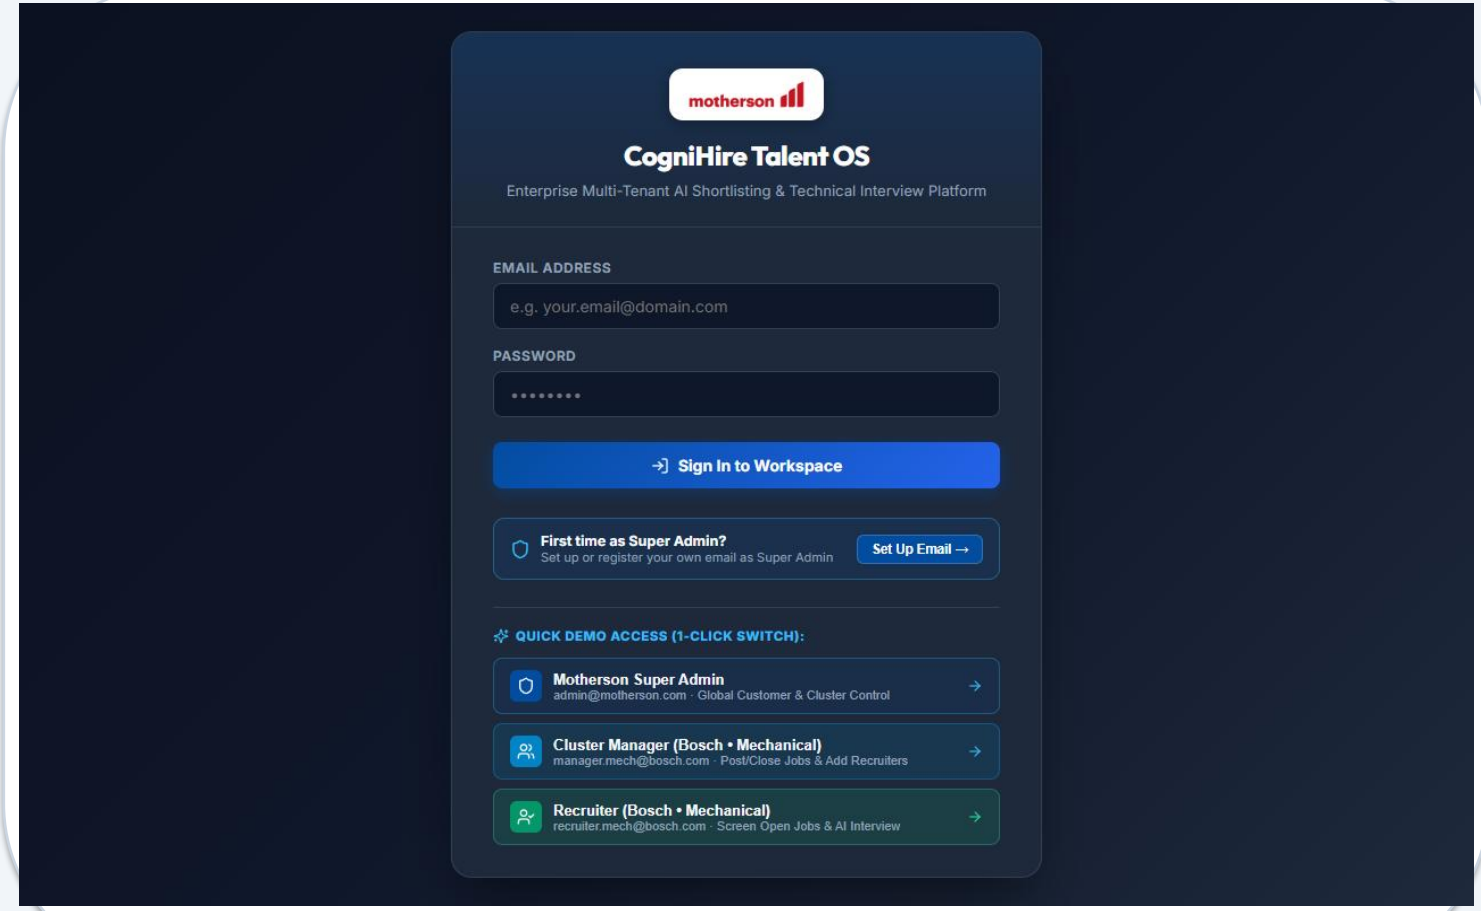

Secure sign-in supporting self-service Super Admin registration, enterprise JWT sessions, and role persistence.

✓ 1-Click Quick Demo Access

Instant switching between Motherson Super Admin, Cluster Manager (Bosch Mechanical), and Recruiter personas with zero friction.

✓ Strict Multi-Tenant Scoping

Session context binds every request to client tenant and cluster boundaries with complete cryptographic isolation.

Live Production Interface: Authentication Portal & 1-Click Role Switcher

02 • ENTERPRISE GOVERNANCE

Motherson Super Admin Command Center

Centralized enterprise governance: customer onboarding, dynamic cluster mapping, and global pipelines

85% CUT Time-to-Shortlist

99.4% Anti-Cheat Accuracy

4-PILLAR Multi-Factor Scoring

100% Tenant RBAC Isolated

KEY CAPABILITIES & ARCHITECTURE

✓ Customer & Client Onboarding

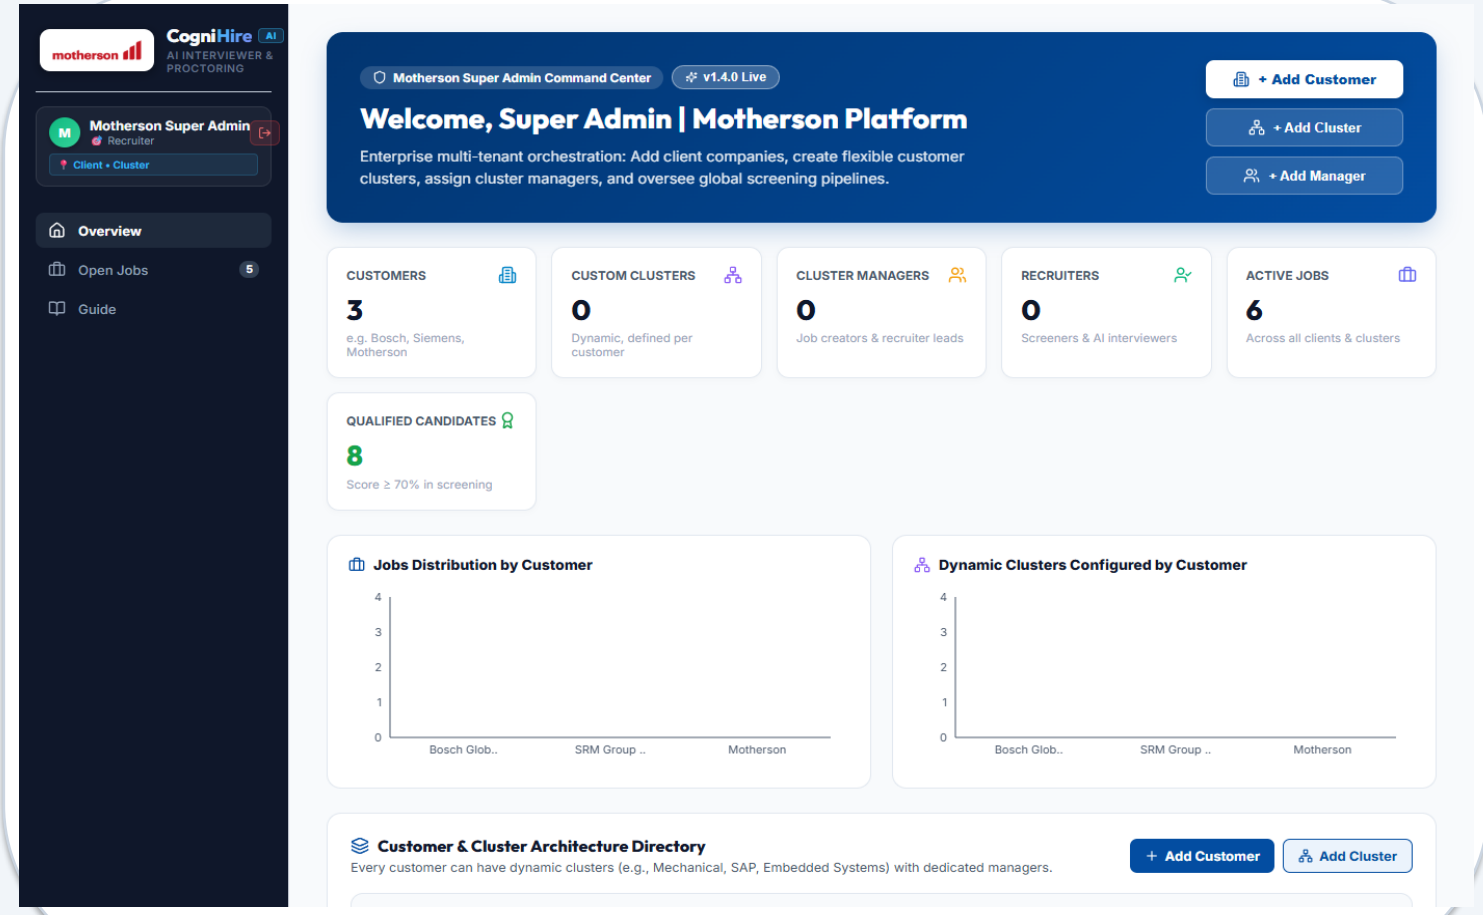

Super Admin onboards enterprise accounts (e.g., Bosch, Siemens, Motherson) with full tenant parameter isolation.

✓ Zero-Hardcoding Dynamic Clusters

Create functional business clusters on-the-fly (Mechanical, SAP, Mobility, Embedded) customized to client organizational trees.

✓ Manager Allocation & Analytics

Assign dedicated cluster leads, track aggregate requisition quotas, and view cross-client screening distributions.

Live Production Interface: Super Admin Command Center with Dynamic Clusters & Analytics

03 • REQUISITION GOVERNANCE

Cluster Management & Requisition Desk

Stage-gated job lifecycle control with explicit Client Hiring Manager designation

85% CUT Time-to-Shortlist

99.4% Anti-Cheat Accuracy

4-PILLAR Multi-Factor Scoring

100% Tenant RBAC Isolated

KEY CAPABILITIES & ARCHITECTURE

✓ Client Hiring Manager Designation

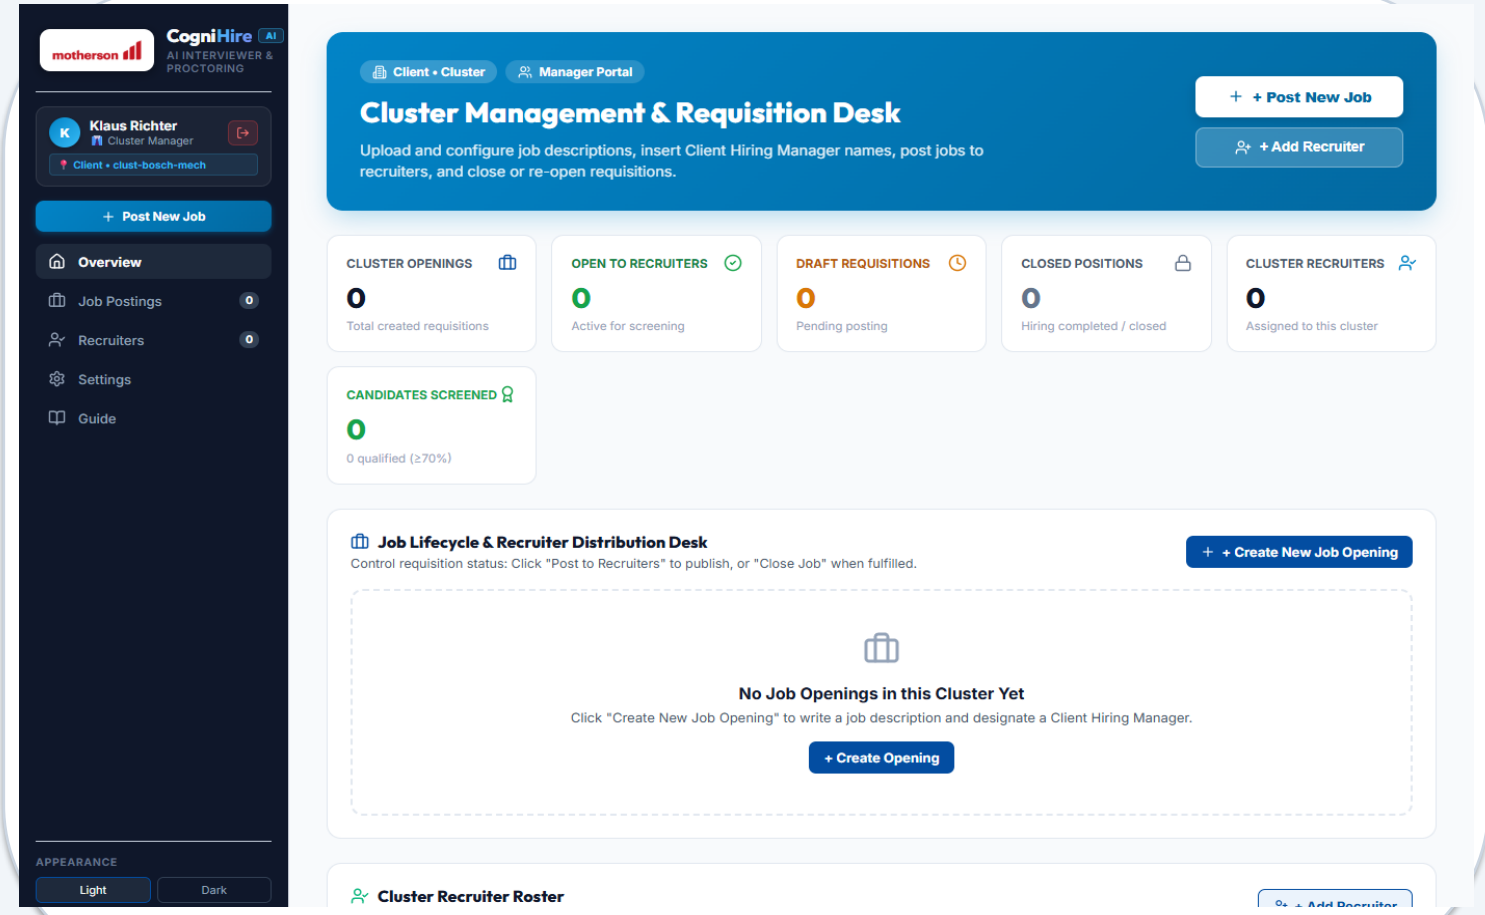

Managers insert client manager names (e.g., Klaus Richter - Bosch) directly into requisitions for end-to-end attribution.

✓ 3-Stage Job Lifecycle Gates

Draft Requisition ➔ [Post to Recruiters] (unblocks screening) ➔ [Close Job] (freezes pipeline when quotas are met).

✓ Recruiter Delegation Desk

Cluster managers invite and manage recruiters assigned specifically to their functional domain cluster.

Live Production Interface: Cluster Manager Requisition Desk with Job Status Gates

04 • AUTONOMOUS RESUME SCREENING

Automated Shortlisting & 4-Pillar AI Fit

Multi-criteria fit evaluation powered by Claude & Gemini, eliminating keyword stuffing

85% CUT — Time-to-Shortlist

99.4% — Anti-Cheat Accuracy

4-PILLAR — Multi-Factor Scoring

100% — Tenant RBAC Isolated

KEY CAPABILITIES & ARCHITECTURE

✓ 4-Pillar Weighted Fit Engine

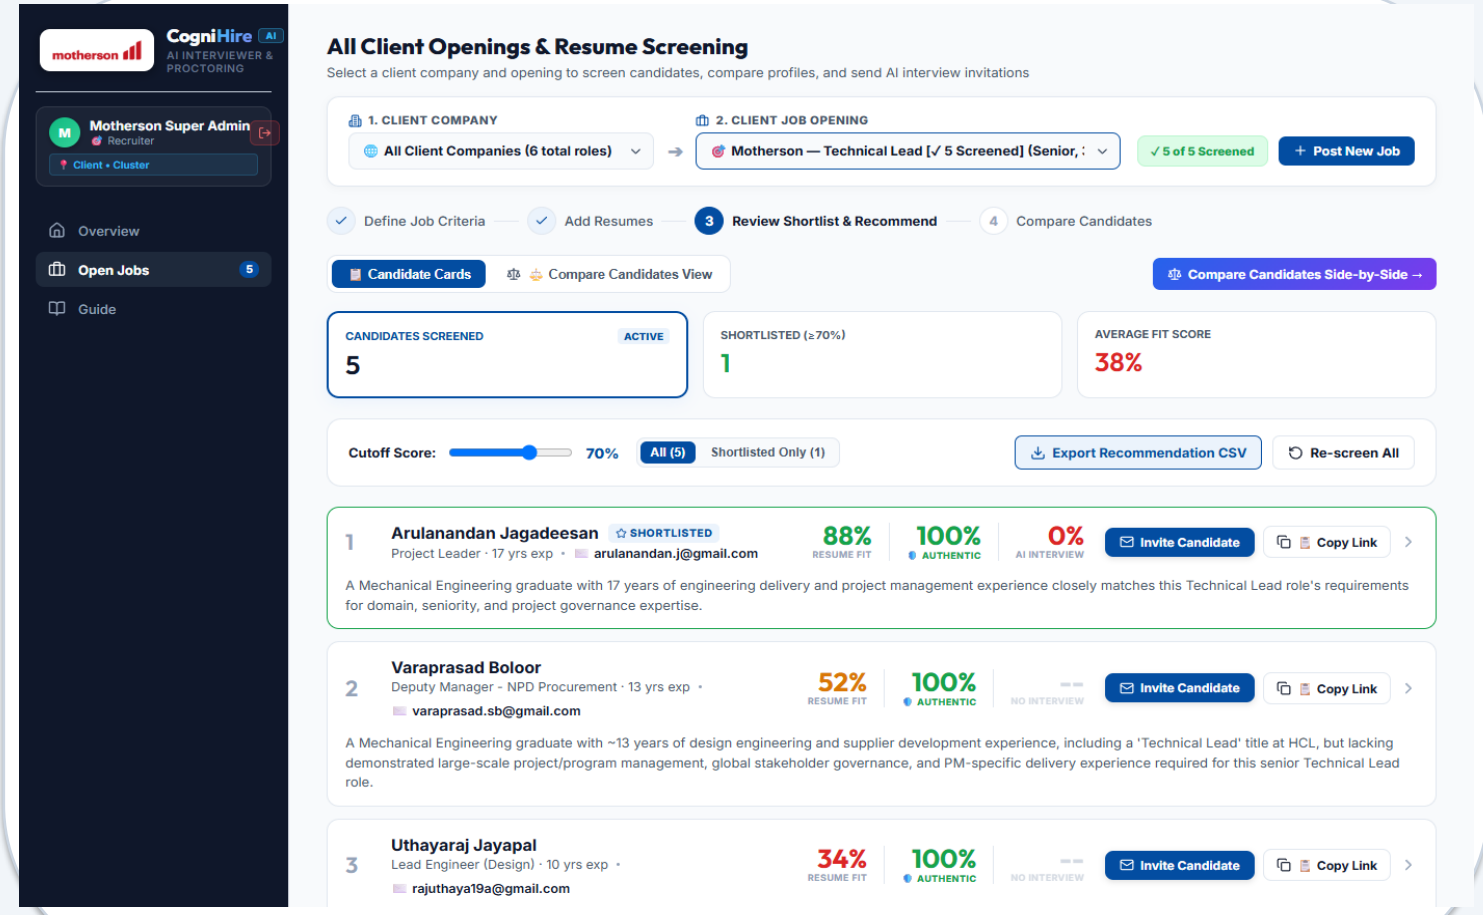

Technical Skills (40%), Experience (25%), Domain (20%), and Education (15%) mathematically combined into a unified fit index.

✓ Reversible HR Hiring Decisions

Dynamic 1-click toggle [✓ Selected] / [✕ Not Selected] with live vacancy fulfillment meter (3 of 4 Staffed) and undo safety.

✓ Dynamic Cutoff Threshold

Interactive score slider dynamically segments candidate pool into Shortlisted, Moderate, and Non-matching tiers.

Live Production Interface: Candidate Shortlist Table with 88% Match & Reversible Verdicts

05 • COMPARATIVE TALENT INTELLIGENCE

Head-to-Head Candidate Comparison Matrix

Automated delta score analysis and side-by-side multi-attribute radar evaluation

85% CUT Time-to-Shortlist

99.4% Anti-Cheat Accuracy

4-PILLAR Multi-Factor Scoring

100% Tenant RBAC Isolated

KEY CAPABILITIES & ARCHITECTURE

✓ Why #1 Scored Highest

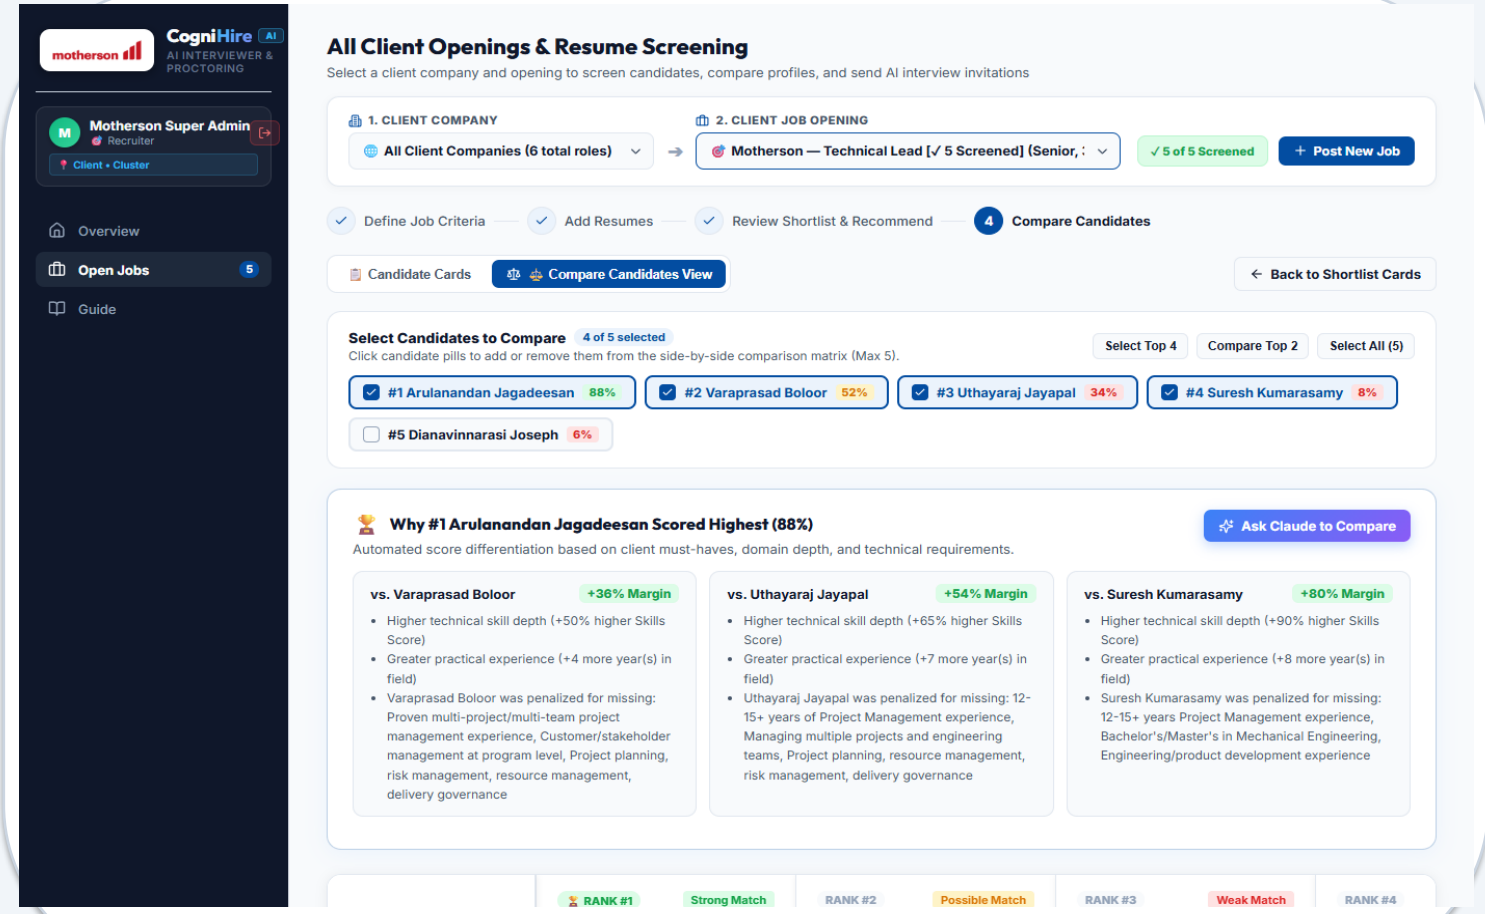

Algorithmic score justification memos: #1 Arulanandan (+36% margin vs #2, +54% margin vs #3) across must-have criteria.

✓ Side-by-Side Multi-Attribute Matrix

Compares technical depth, practical tenure, degree pedigree, and domain alignment across Top 5 contenders simultaneously.

✓ Executive Comparison Memo

One-click Claude executive summary generator producing board-ready hiring rationales.

Live Production Interface: Top Candidate Comparison Matrix with Margin Justifications

06 • ZERO-TRUST PROCTORING

AI Video Interview Proctoring & Anti-Cheat

Two-tier defense neutralizing adversarial prompt injections, copy-paste, and smartphone teleprompters

85% CUT	99.4%	4-PILLAR	100%
Time-to-Shortlist	Anti-Cheat Accuracy	Multi-Factor Scoring	Tenant RBAC Isolated

KEY CAPABILITIES & ARCHITECTURE

✓ Sustained Gaze Telemetry

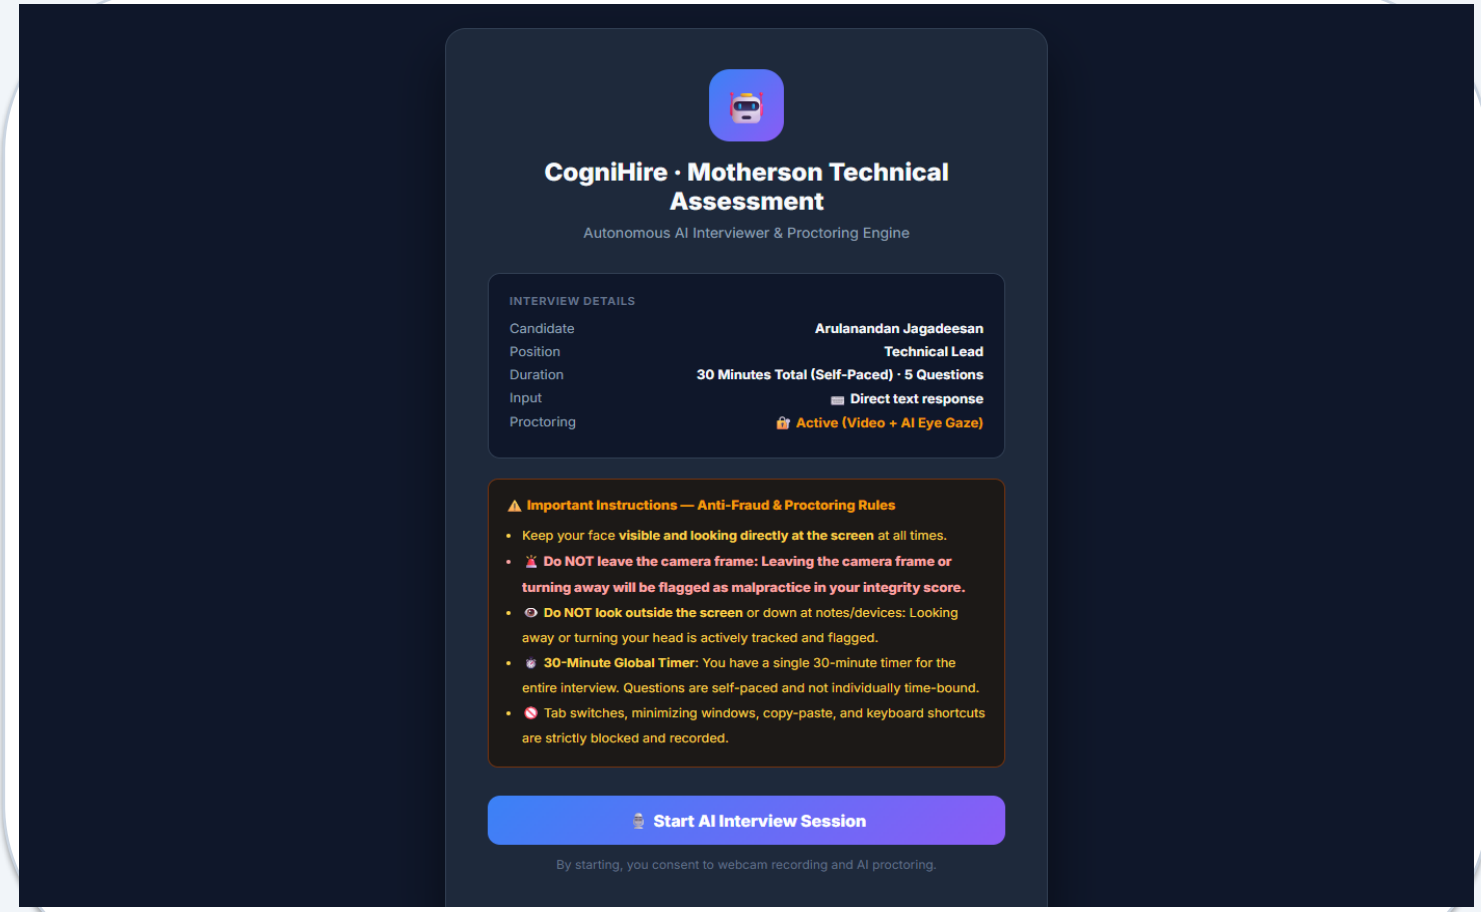

MediaPipe video tracking flags downward glances (>3.5s) at hidden smartphone teleprompters placed in front of screens.

✓ Keystroke Dynamics & WPM Cadence

Detects instant clipboard dumps and superhuman typing speed bursts devoid of human thinking pauses.

✓ ChatGPT Stylometry & Global Timer

Calculates AI Content Probability % and enforces a tamper-monitored 30-minute global exam countdown clock.

Live Production Interface: Proctored Technical Assessment Portal with Gaze Malpractice Rules
